Ref No. 3047-H1/G. dated 11 March 1943.

Sir,

Sub:- Establishment - Lady Goschen Hospital, Mangalore- Increase in the Nursing staff - Sanction requested.

There are two Government Hospitals in Mangalore ~~City~~ viz., The Wenlock (District Head quarters) Hospital and the Lady Goschen Hospital, the former with a bed strength of 116 and the latter with 80 beds but the daily average attendance of in and out-patients for the last three years has been as follows:-

	Wenlock Hospital		Lady Goschen Hospital	
	In-patients	Out-patients.	In-patients	Out-patients.
1940	155.75	721.99	112.00	246.38
1941	145.27	760.08	94.25	226.31
1942	128.06	842.32	109.85	162.58

Both the hospitals are well built, well-equipped and are doing good work. The Wenlock Hospital is a partial training centre for pupil nurses who spend 12 to 18 months of the Nurses' Training Course there, later joining one of the City hospitals for the completion of the training. The hospital however is only for male patients, and for the pupil nurses

to sit for the first examination in General Sick Nursing, women nursing is essential. The nurse pupils at Mangalore are therefore in a disadvantage in not having done women's nursing before sitting for the 1st examination.

In order to improve the training of the pupil nurses at Mangalore and to utilise both the hospitals (Wenlock and Lady Goschen's) to the utmost advantage it is suggested that a general training be given partly in the Wenlock and partly in the Lady Goschen Hospitals. As both the hospitals are not situated within the same compound such a scheme could only be carried out by an increase in the pupil strength (female) and in the trained nurses' strength in the Lady Goschen Hospital which has only 3 staff nurses and some pupil midwives for a daily average of 109.85 in-patients to undertake all duties, leaving no one for the teaching of pupil nurses, or for the supervision of their work. The sanctioned nursing staff for the Wenlock Hospital with 116 beds is 1 sister, 5 nurses and 12 pupil nurses, which approximately works out to the proportion approved by Government, viz., 1 staff nurse and two pupil nurses for every 20 beds. The proportion fixed for non-training hospitals is 1 staff nurse for every 14 beds and at this rate the Lady Goschen Hospital should have six nurses. With a view to give a general training in male and female nursing to the nurse pupils it is requested that the Government will be pleased to sanction the employment of 1 sister, two additional staff nurses and four pupil nurses in the Lady Goschen Hospital. This additional staff asked for is within the permissable scale of 6 staff nurses and 10 pupil nurses for the daily average attendance of 109.85 in-patients. The proposal may be given effect to from 1-7-1943.

for Surgeon-General with the
Government of Madras.

D.2 Section

Estt – Lady Goschen Hospital, Mangalore employment of addl nursing staff –

CF No 7222 D2. From the S.G. Ref No 3047. Hw/Sg dt 11.3.43.

The S.G. has submitted proposals for the employment of one ward sister two staff nurses and four pupil nurses in the Lady Goschen Hospital, Mangalore, for the improvement in training of pupil nurses in that Station.

The bedstrength of the Hdqrs Hospl and the Lady Goschen Hospl Madras is 196 (116 + 80). The following statement shows the nursing staff in both the institutions.

Total No. of Beds.	Nursing staff admissible.	Existing Staff of nurses	Pupil Nurses admissible.	Existing Staff of Nurse pupils.
196.	10.	10	20.	12.

According to the existing standard the hospital is ineligible for addl nurses but eligible for eight pupil nurses.

The Govt have accepted the necessity for a Sister Tutor in nurses' training centres vide P 12-4 Go Stg Pld 4-3-43. On this analogy a Sister Tutor may be allowed for Mangalore.

It is therefore for orders whether EPH may support the proposal for the employment

of 1 Sister Tutor and 4 pupil nurses.
The ~~ultimate cost~~ extra cost on account of the ~~proposal~~ proposal is given at (Q). The ultimate cost is below Rs 5,000. The proposal need not be treated as a "New Service" The remarks of fin may be invited

27.3.43

The two are put up below.

The Government District Headquarters Hospital, Mangalore, is a partial training centre for pupil nurses. The Lady Goschen Hospital for women and children, Mangalore, is not a training centre. The Surgeon-General wants to utilise this institution also as a training centre and has submitted proposals for the following additional staff:

(1) A Sister Nurse
(2) Two additional Staff Nurses
(3) Four Pupil Nurses

} In the Lady Goschen Hospital.

2. In connection with the proposals for increased staff in medical institutions considered as a Part II Scheme for 1943-44, both the hospitals referred to above were treated as one unit and two additional nurses have been sanctioned already.

3. There are at present only 12 pupil nurses in both the institutions together as training centres, 20 pupils nurses are admissable on the basis of two pupil nurses for every 20 beds. The additional 4 pupil nurses asked for may be sanctioned.

4. As regards the Sister, no scale has been sanctioned for employment of sisters. In connection with the employment of additional sister tutors in training centres, the Surgeon-General did not suggest the employment of a sistar tutor in the Government Headquarters Hospital, Mangalore.

I think the reasonable.

There is already a ward sister in that Hospital. It is for orders whether a Sister may be sanctioned for the Lady Goschen Hospital in view of the increase in the number of nurse pupils suggested above.

The case may be sent to Finance for remarks.

6.4.43

Finance

Finance (EH)

Finance may agree to the proposal of EH.H to appoint a sister tutor and four nurse pupils in the Lady Goschen Hospital, Mangalore and to utilise the hospital as a training centre for pupil nurses. The extra cost on account of the proposal being Rs. 4802 p.a., it should ordinarily be brought forward as a Part II Scheme for 1944-1945. But if the proposal is considered so urgent that it should be given effect to in the current year itself order in circulation including A.I. should be obtained.
